

One calm workspace for your whole school.

Admissions, academics, attendance, examinations, fees and family communication - connected around one reliable student record.

Less software noise. More operational clarity.

School365 brings the essential school day into one focused, accountable workspace.

01

CONNECTED WORKFLOWS

Data moves with the student

An application becomes an enrollment, attendance record, report card and fee account without duplicate entry.

02

FOCUSED EXPERIENCE

Every role sees what matters

Administrators, teachers, students and guardians get purpose-built views instead of one crowded interface.

03

RELIABLE CONTROLS

Safe by design, clear by default

Permissions, tenant boundaries, audit history and lifecycle controls protect everyday school operations.

CONNECTED STUDENT RECORD

Multi-school

FOUNDATION FROM DAY ONE

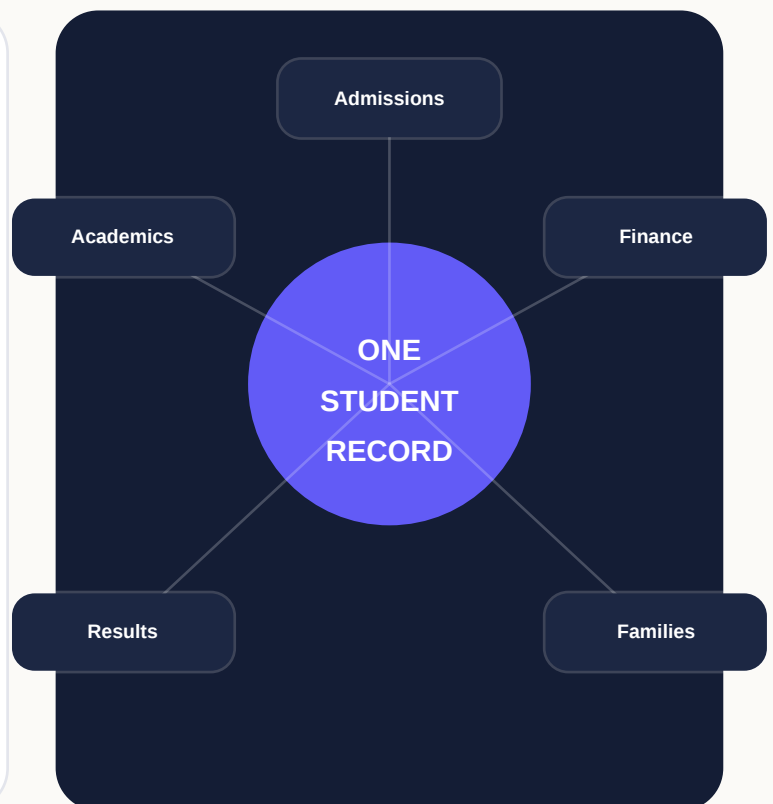

One student journey. One trusted record.

Capture information once, then use it safely across the school lifecycle.

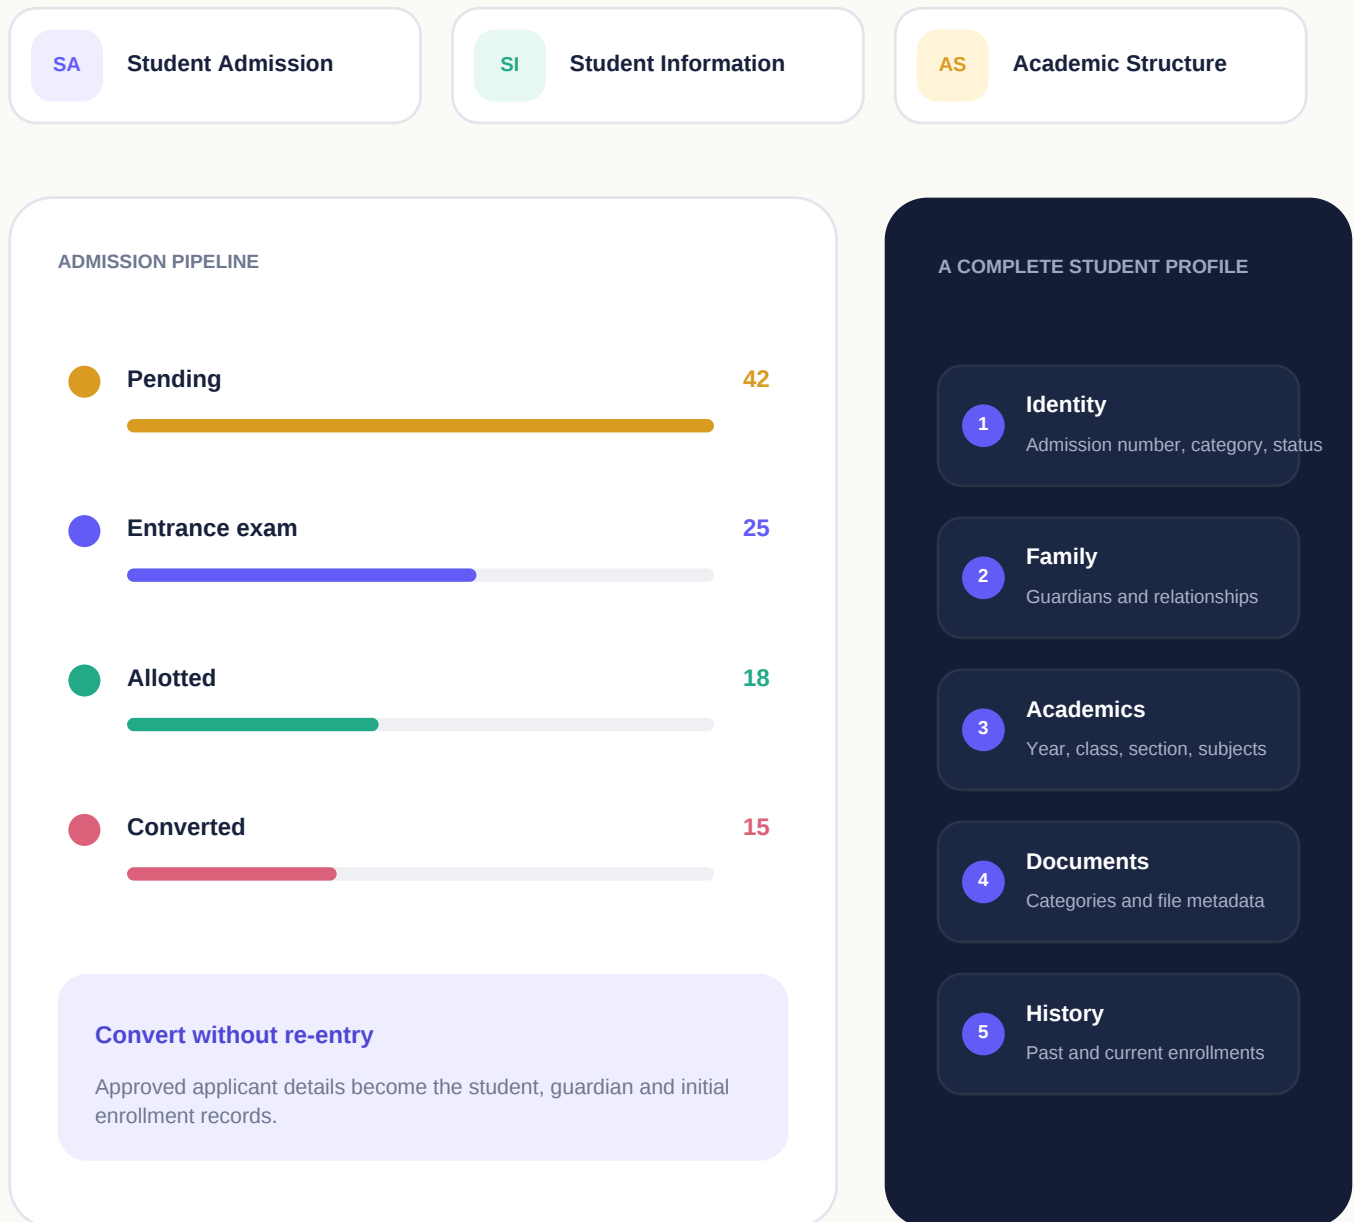

WHAT STAYS CONNECTED

- ✓ Student identity, contact details and guardians
- ✓ Enrollment history, class and subject choices
- ✓ Attendance, results and report-card snapshots
- ✓ Invoices, adjustments, receipts and refunds
- ✓ Documents, certificates and key decisions

From application to an active student record.

Admissions, student information and academic structure work as one continuous workflow.

Plan the week. Run the day. Know who is present.

Human Resources, timetable and attendance give school teams one practical daily rhythm.
